

Preparation of Papers for IJITNA

1st Author, 2nd Author, and 3rd Author

Abstract—These instructions give you guidelines for preparing papers for IJITNA. The abstract should appear at the top of the left-hand column of text. The abstract should contain no more than 200 words.

Index Terms—Put key words

I. INTRODUCTION

This template includes complete descriptions of the fonts, margin, and related information for producing your IJITNA papers with Microsoft Word in .doc file. Only the .doc file is accepted for the final paper.

II. FORMATTING YOUR PAPER

A. Paper Size

Print your properly formatted text on high-quality, 8.5 x 11-inch white printer paper. The top margin and bottom margin must be 1 inch (25 mm). The left margin and right margin must be 0.75 inch (19 mm).

B. Title

Use a font of 24 point in the paper title. Capitalize only the first word in a paper title.

C. Text

Use a font of 10 point and Times New Roman type throughout the paper.

D. Figure and Table

Use a font of 9 point type in figure and table captions.

III. MATH

Use Microsoft Equation Editor to edit equations in your paper.

1st Author is with the National World College of Science Technology, Boulder, NY 12345 USA. (e-mail: author1@mail.nwest.edu)

2nd and 3rd Authors, was with Asia University, Tokyo, Japan. (e-mail: author2@mail.au.edu.jp; author3@mail.au.edu.jp).

Table I The number of total qualified coefficients (K_1) and the number of coefficients located for watermark embedding (K_2).

Image	K_1	K_2
Lena	1,336	6,778
Campus	2,023	7,240
F16	5,916	1,831
Tulips	20,567	6,281

IV. CONCLUSION

A conclusion section is required in IJITNA. The conclusion may review the main points of the paper, but do not replicate the abstract as the conclusion. The importance of the work or suggest applications and extensions could be presented in the conclusion.

ACKNOWLEDGMENT

Acknowledge, if needed, appear before the references.
